TEST TABLE:

CHARACTERISTICS	METHOD	VALUE
Thermal cycling	5.3	Pass
Coatings	5.4	Pass
Load test	552	Pass
Flow rate	5.8	> 8.0 gpm

INCLUDED ELEMENTS:

- » **GRATE:** Made of 3/32" marine grade stainless steel.
- » **DRAIN:** Lowest height drain 1⁷/₈" made of ABS.
- » **ADAPTER:** A push-in resilient connection for the most common clamping ring shower drains.
- » **HAIR STRAINER:** Premium ABS hair-strainer included.

COMPONENTS:

PIECE	DESCRIPTION	MATERIAL
1	PLUS GRATE	AISI 304
2	HAIR STRAINER	ABS
3	DRAIN	ABS
4	ADAPTER	SBS
5	SQUARE DRAIN CONNECTOR*	ABS/PVC
6	SPIGA GRATE	AISI 304
7	SQUARE GRATE	AISI 304

*1 SQUARE DRAIN CONNECTOR (IGU6801 or IGU6803) sold separately

MAINTENANCE:

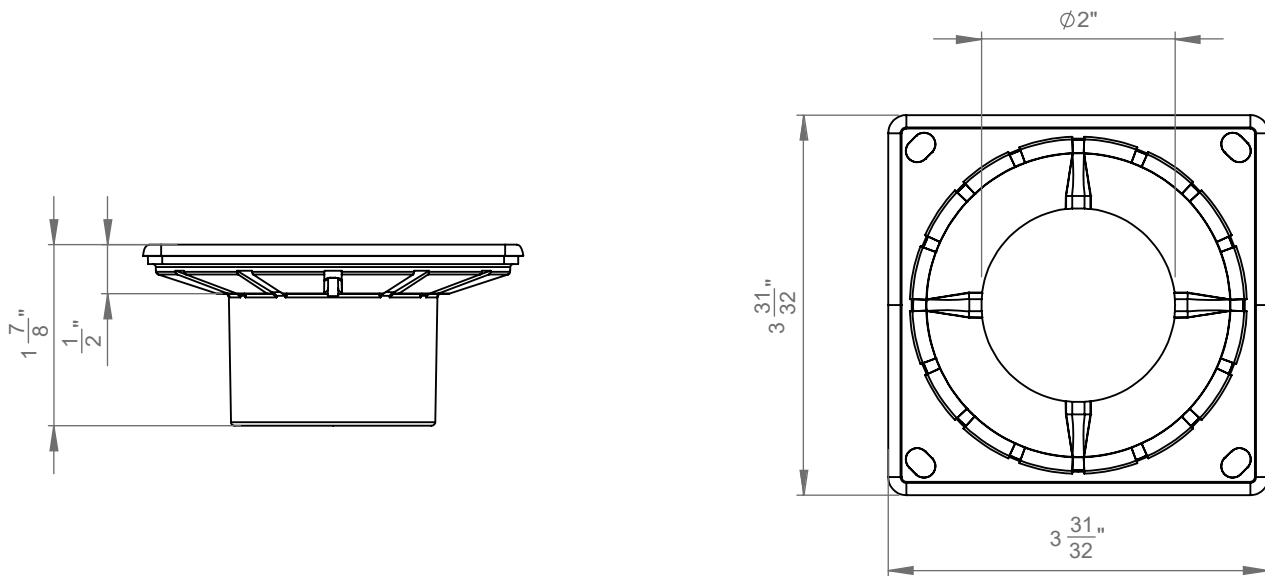

Ensuring the longevity and optimal performance of EVO LITE is remarkably hassle-free, as these products demand no specialized maintenance and exhibit resistance to mold and fungi. When necessary, the drain grates can be effortlessly removed for the cleaning of both the drain housing and pipes.

For routine cleaning of the grates and profiles, utilize neutral cleaners to preserve their integrity. It is imperative to steer clear of potent acids (such as hydrochloric or hydrofluoric) and strong bases or alkaline cleaners (including bleach, ammonia, and chlorides). Avoid abrasive cleaning agents and tools to prevent any potential damage.

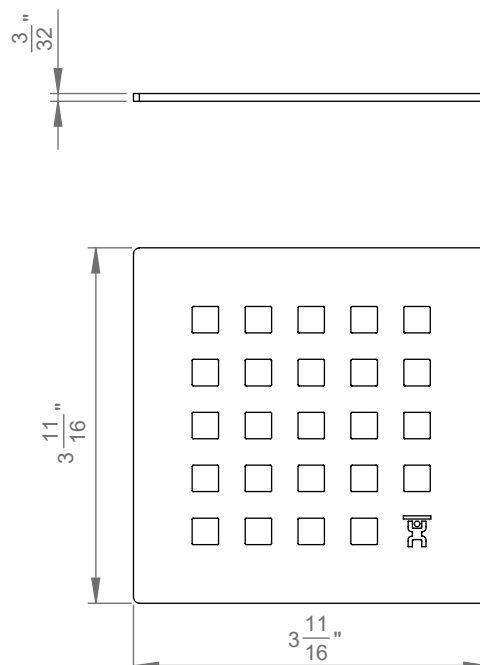

Even stainless steel, renowned for its durability, benefits from periodic cleaning. This not only sustains a pristine appearance but also mitigates the risk of corrosion. Applying a chrome-polishing agent imparts a subtle sheen to stainless steel surfaces, contributing to their overall aesthetic appeal.
